Neuroscience Education Institute

Hello to the team at Neuroscience Education Institute,

Nice to meet you! My name is Brian Reed. I'm applying because the professionals at Neuroscience Education Institute are smart and solve very challenging problems. I also want to work at Neuroscience Education Institute because it builds meaningful and positive impact on people's lives.

I know I can contribute meaningfully to Neuroscience Education Institute since I'm passionate about software development. In the past, I've worked on many different development projects. Specifically, I created a social networking website for software engineers to reconnect . Some of the skills I'm most confident about are JavaScript, React, Node, MongoDB, GitHub.

Hope to hear from you soon!

Warmly,
Brian Reed
